## ROF FEATHERSTONE, WOLVERHAMPTON – DEMOLITION & CIVILS

**Value - £1.9m**

**Client – BAE**

**Role – Principal Contractor**

**Overview –** Demolition & Civils Infrastructure package including major Earthworks, of former heavily industrial site.

### Scope of Works & Achievements

- Construction of 1.5km of carriageway adjacent to a live carriageway including surface water drainage, services infrastructure (gas, water, electric), carriageway barrier
- Implementation of all necessary traffic controls
- Surfacing completed in phases to facilitate continued access to a local 3rd party affected by the works
- Several of the existing buildings used to produce radioactive substance, had to be decommissioned under strict control measures
- Due to demolition risks & special wastes on site, HSE visited & inspected site mid-operation
- Demolition, removal of asbestos
- Reuse of materials arising from demolition, (concrete/brickwork)
- Bulk earthworks, approx 40,000m<sup>3</sup> of soil strip and re-profiling of Class 2 soils to (SHW) specification
