## PARTINGTON GAS WORKS, TANKER LOADING BAYS

**Value - £1.1m**

**Client – Land & Marine Engineering**

**Role – Principal Contractor**

**Overview – Construction of new tanker loading bays for Gas Works**

### Scope of Works & Achievements

- Earthworks
- Contaminated disposal off-site
- Construction of 800m of new road
- Construction of associated drainage with outfall structures
- Footpaths and landscaping works
- Project was undertaken in a “Live” Gas Work
- Works completed within budget / on programme to the specified quality without any Health and Safety incidents or accidents
- Client assessment comments “Excellent safety, co-operation and record keeping”
- Completion of the scheme was programmed around gas sale key dates, due to the volume of additional gas tankers at peak time
