WOODCHURCH ROAD - PRENTON

Value - £500,000

Client – Wirral MBC

Role – Principal Contractor

Overview – Reconstruction of all footways, within a live traffic environment

Scope of Works & Achievements

- Reconstruction of all footways
- Traffic management
- Street lighting and signs and associated ducts for lighting and communication cables
- Widening of existing side roads,
- Realignment of footways island
- Realignment of carriageway splitter islands and mill out
- Replacing surfacing to main carriageway and side roads and junction box and white lines
- Extract from Client Reference - The project, a difficult junction improvement, went extremely smoothly, this was due to the hard work of the D. Morgan team, as Engineer and could not have asked for any more....'
- Completed to programme and budget without any safety, environmental or third party issues
- Won under competitive tender
